UPGRADE/REPAIR REQUEST

DATE: _____

NAME: _____

ADDRESS: _____

PHONE: _____

EMAIL: _____

ITEM(S) DESCRIPTION: _____

REQUESTED ACTION: _____

NOTES: _____

www.airsoftextreme.com

Please fill out the Repair form completely and include with your shipment back to us. A repair/upgrade request shipment sent to us without this form with complete information WILL delay the processing of your shipment.

Unless otherwise instructed, please ship your package with the completed form to:

Airsoft Extreme
891 Laurelwood Rd #108
Santa Clara, CA 95054

The details of our Repair and Upgrade policy can be found on our website in the REPAIR/UPGRADE SERVICE web page.

Repair/Upgrades can take a few days to receive into our system and assigned to a technician after we receive a shipment. Your patience is appreciated.

We reserve the right to refuse a repair/upgrade request. We reserve the right to evaluate and determine the acceptability of a repair/upgrade request.

We guarantee and warranty the results and durability of our work within reason. Certain brands of airsoft products may have inherent weaknesses or defects in manufacturing that we are not responsible for if they are affected by the repair or upgrade. Some upgrades, such as high power or super high speed upgrades, require special care in usage and handling and will be warranted only on a case by case basis if problems occur.

Repaired item is thoroughly tested by the technician before return shipping. We are not responsible for shipping damage either way.

We will contact you via phone or email for payment and final status upon completion of work. Non-response to our inquiries or communications on your repair or non-payment within 30 days of our completion of our work will be considered as forfeiture of your property to us.

For followup inquiries, please contact us at:
